JULY 31 - AUGUST 27, 2025

A collection of Valvoline motor oil products. In the background, two large jugs are visible: a red one on the left labeled 'Valvoline SYNTHETIC BLEND HIGH MILEAGE MAXLIFE TECHNOLOGY MOTOR OIL' and a white one on the right labeled 'Valvoline PREMIUM FULL SYNTHETIC RESTORE & PROTECT MOTOR OIL'. In the foreground, three smaller bottles are shown: a white bottle of 'MAXLIFE' motor oil, an orange bottle of 'FRAM' motor oil, and a dark grey bottle of 'PUROLATOR' motor oil. The entire image is set against a solid blue background.

AND FUNCTION

A/C REFRIGERANT RECHARGE INSTRUCTIONS

1. Check the type of refrigerant for your vehicle (R1234yf or R134A). When in doubt, ask a team member.
2. Locate low-pressure A/C service port.
3. Turn A/C on coldest setting, fan on high, press "recirculate" cabin air button.
4. Attach gauge to service port, check pressure, detach.
5. Separate can, shake well, reconnect to gauge.
6. Attach to port, squeeze trigger, shake/rotate can while charging.
7. Check pressure every 15 seconds until it's in the green. Don't overcharge.

When Should You Recharge Your A/C System?

- System blows warm air
- Low pressure indicated when checked (low pressure can make the compressor work harder and lead to premature failure)

ANTIFREEZE IN THE SUMMER?

Yes. Compared to water, antifreeze raises the boiling point of the vehicle's cooling system (reducing the chances of overheating), lubricates water pumps, and prevents corrosion.

PROJECT SUPPLIES

DIEHARD MARINE BATTERY LINE-UP

PREMIUM - AGM - Deep Cycle

- Superior electrical performance for marine and RV electronics
- Up to 2X the life of standard flooded marine batteries
- Certified non-spillable for mounting flexibility

BEST - Gold - Deep Cycle

- Able to power multiple accessory loads
- Up to 30% more cycling life

BETTER - Silver - Deep Cycle

- Increased cycling capacity for long life with extended seasonal performance
- Power for multiple electrical accessories

GOOD - Starting

- Designed to deliver a short energy burst at start-up in engines with electrical systems relying on an alternator for power needs

When you're picking up a new marine battery, it's a great time to grab a maintainer if you don't have one or need a replacement.

COMPLETE THE JOB

Noisy brakes? It may be time to inspect your vehicle's brake system to determine the condition of its components. Your local Carquest is here to make sure you have what you need to complete the job. Here are a few items to be sure you have*:

- Replace both brake pads and rotors
- Remember brake cleaner, fluid and lubricant
- Have shop gloves and towels on-hand
- Check that you have the right tools

**This is not an exhaustive list so consider consulting your Carquest store or local shop if you are unsure of the issue.*

CAR CARE CHECKLIST

Regular vehicle maintenance is essential to keep your car safe and running well. Routine checks and service help ensure nothing is wrong or worsening, preventing problems from becoming expensive repairs and saving you money. *
